One of the usual rows between Chinese and natives took place last night near Punahou. The trouble arose from a dispute over a fence claimed by both parties. A New Deal.

In spite of the numerous claims of existing depression enterprising men come to the front every day. The many friends of Captain G. D. Freeth are heartily congratulating him on his purchase of the interests of Geo. Lycurgus in the well-known liquor firm which has been doing business as the California Wine Company.

Captain Freeth and Harry Congdon are now the sole owners of that popular business. Captain Freeth is experienced in the liquor business, having, with W. C. Peacock, taken up Lenehan's business on Nuuanu street some years ago. The firm of Freeth & Peacock was conducted in a most satisfactory manner. For private reasons Captain Freeth withdrew, and for some time engaged himself in certain South Sea Island trade where he made a success.

Captain Freeth is one of the most popular men in Honolulu, and his friends hail him back in business with a hearty aloha.

Harry Congdon is equally well known here. He is considered the expert on California wines, and his establishment will ever carry the highest grade of that modern beverage. It is not necessary here to describe Congdon's career as a wine merchant. He is now, as he always was, the most popular wine seller in Honolulu. He and Freeth make a strong team.

Honolulu, July 22, 1895.

It cannot be denied that the war cloud which hangs over the world at present is getting darker and darker. It is a historical fact that the end of each century has always been fraught with bloodshed and strife, internally as well as externally. The great powers of Europe to-day are making and unmaking alliances of all kinds. The fact is that diplomacy to-day is using every means to postpone the day when the crash must come and gain time for the different countries to prepare themselves for the gigantic struggle which will and must take place before the present generation dates its letters in the year 1900. Turkey is threatened from all sides. The Russian bear is extending his claws and licking his blood-thirsty tongue towards the East and South in anticipation of gain. The passive and cold brother nations who inhabit the Scandinavian peninsula are now glaring ferociously ready to spring at each other's throats. Germany, under its impetuous, indiscreet imperial master, is drifting into the deceptive maelstrom of conquest, and war, in which all past experience, all knowledge gained through the horrors of war are forgotten, and where only false sentiment and sham patriotism are ruling.

And while the giants get ready for the great war their leaders have realized one thing, and that is, that no army will have a show, no militia a chance, except provided with the indispensable bicycle. And no wonder that the monarchial countries of Europe prefer the "Monarch" to any other kind, and supply their "wheeling cavalry" with that favorite brand.

We have watched proceedings in the great countries with a great deal of care, and we have secured the sole agency for Hawaii of the Monarch Cycle. We have realized that, not alone a large stock is necessary, but that a workshop, in which all needed repairs can be done is in the interest of our patrons, and we have established one above our stores on Fort street. This "bicycle infirmary" will attend to any "sickness" which the wheel may meet through accident or lack of care. Our prices are far below veterinary figures. We fix the Monarchs sold by us at cost price if ever they should need it. We have everything on hand and have secured the services of a most experienced bicycle man, whose work we guarantee.

As the bicycle is not only of advantage in war but love, we wish to call the attention of the young boys and girls who have to spend their vacations in Honolulu, that we have wheels just suitable for them. If daddy can't send them to the country for a trip—or buy them a bow-wow—let them ask him for a Monarch. It will give more pleasure and last much longer than even a volcano trip.
